

Click n Collect Cookie Policy of this Website

In this cookie policy we explain cookies, which different types we use and why, and how to change your cookie settings.

1. Who we are

We are Click n Collect Pty Ltd (also known as Click n Collect, or CnC), an Australian developer, manufacturer and seller of ambient, chiller, freezer, laundry and any other type of modular or custom built Locker System. Click n Collect provides integrated software to support locker based interaction with websites, e-commerce, and other platforms. The company has offices at 29-35 Wellington Street North Hobart, Tasmania Victoria 7000, Australia.

2. What are cookies?

Cookies are small data files which are downloaded onto your device by the website which you are visiting. The next time you visit the same website, cookies ensure that your device is recognised. By using cookies and similar technologies such as pixel tags/beacons and scripts ('cookies'), this website can save information about visits and visitors. We place some of the cookies on the websites ourselves, while other cookies are placed by third parties. Third-party cookies may collect data outside our websites as well.

Cookies can be utilised to make visiting a website more personal, by, for instance:

- displaying relevant navigation settings;
- remembering visitors' preferences;
- improving the overall user experience and
- limiting the number of advertisements shown.

3. CnC's use of cookies

By clicking 'agree' when the cookie notice is shown or by continuing to use the website, you thereby give consent for cookies to be placed and read out on ClicknCollect.com and any associated sub-domains. CnC uses the information which it has collected through cookies for the purposes stated in [CnC's Privacy Policy](#).

4. ClicknCollect.com uses three types of cookies

Functional cookies. These are cookies which enable users to view ClicknCollect.com, use the functions on the websites and gain access to secured portions of them. The information collected through these cookies is not used for marketing purposes. If use of this type of cookie is not allowed, this will have the following consequences:

- using various parts of Cnc-global.com will become impossible;
- CnC can provide less support to users;
- CnC will be unable to remember your preferences for not using or displaying a specific function.

Analytic cookies. These cookies help CnC to improve its websites. The cookies collect information about the way in which visitors use ClicknCollect.com, including information about the pages most visited or the number of error messages displayed. WebAnalytics cookies are one example of this type of cookie.

Marketing and other cookies. Marketing cookies are typically placed on ClicknCollect.com by advertising networks. These networks are companies which act as intermediaries between CnC and advertisers. These cookies are used to:

- show relevant, personalised advertisements or offers through every type of medium (such as e-mail, social media and banner ads) based on your visit to and click behaviour on ClicknCollect.com;
- limit the number of times each advertisement is displayed;
- measure the effectiveness of an advertising campaign;
- make a link with social media, so you will be recognised when you wish to use social media through ClicknCollect.com.

5. Adjusting cookie settings and deleting cookies

If you do not want CnC to place cookies on your device, you can refuse the use of cookies through your browser's settings or options. You need to separately adjust the settings for each browser and each computer.

Please note that, if you adjust the cookie settings for CnC, you may not be able to correctly use some parts of ClicknCollect.com afterwards.

6. More about cookies

'Your Online Choices' (www.youronlinechoices.com) is a website offered by the internet advertising industry which contains information about 'behavioural advertising', 'online privacy' and opt-out options.

If this cookie policy changes, we will adjust the policy. The most recent version of this cookie policy is dated 4th August 2023.
